

TITLE: ORGANIZATION STRUCTURE OF A BASIC SCHOOL OF ARTS

AUTHOR: Iveta Sinkulová

ABSTRAKT:

My bachelor thesis “Organization Structure of a Basic School of Arts“ aims at how to operate a school more effectively through a well-built Org Chart. It shows how to work out the structure of a school so that all the responsible teaching staff gets involved in the management at maximum possible rate and thus the process of teaching can be viewed from many different angles.

Based on research of Org Charts of some other schools of arts, this work could be a clue how to set up and work on the structure or how to deal with its possible changes.

The thesis also contains results of an opinion poll that I conducted among directors of basic schools of art in Central Bohemia Region.

My work should provide a deeper insight into organization structure in schools of arts and show that an Org Chart is a live document and not just a formal item.
